PROFESSIONAL SUMMARY

Professional Software Developer with a familiarity with a wide variety of languages, both human and computer. I will bring a unique set of experiences and skills to your development team.

SKILLS

- JavaScript, including Node.js, Express, jQuery, React.js
- MongoDB, including Mongoose
- Python, including Django
- CSS, HTML
- PostgreSQL
- PHP
- Fluent in Japanese

TECHNICAL PROJECTS

Tabula Aurea   **06/2020**
- Built a full-stack MERN application allowing users to list and compare monthly income and expenses, assets and liabilities, financial goals, and track investments
- Styled with all native CSS
- Extended skills with JS and React, made use of external APIs, and deployed front and back ends to Heroku

Tutor Marketplace   **05/2020**
- Built a full-stack application to connect language teachers with prospective students using Python, Django, and PostgreSQL
- Strengthened skills with Bootstrap library and learned to use Django and PostgreSQL to make database calls

HoneyDew   **04/2020**
- Built a full-stack application to track tasks and chores with a focus on the home and associated subspaces, using Express and MongoDB
- Improved skills with GitHub project coordination, as well as JavaScript

The Legend of Nelda   **03/2020**
- Created a browser-based web game in homage to the NES Classic using HTML, CSS, JavaScript and JQuery
- Developed player status menu, custom battle system, and four different endings
- Built up object-oriented programming and DOM manipulation skills

SOFTWARE DEVELOPMENT EXPERIENCE

General Assembly Software Development Immersive Program Fellow   **03/2020 – 06/2020**
- Coordinated with a variety of teams in an intensive work environment.
- Built and presented several projects with quick turnaround

PROFESSIONAL EXPERIENCE

Sr. Managing Editor, Lionbridge Technologies, SF, CA   **05/2015 – 03/2020**
The world's largest provider for translation and localization services.
- Ensured continuity of operations during a time of transition.
- Managed resources, assigned projects and generated a high level of workflow.
- Performed document certification as Notary Public of the State of California.
